HSUHK wins Smart Energy Award – Energy Management Award

24 October 2025

HSUHK won the Energy Management Award under the “Smart Energy Award 2025” by CLP Power Hong Kong Limited. The award was presented to HSUHK on 24 October 2025.

Smart Energy Award is an annual event specifically established for Hong Kong's industrial and commercial sectors. The core objective of the award is to promote energy innovation by recognising enterprises that demonstrate outstanding performance in energy-saving management and technological applications, thereby fostering the exchange of best practices within the industry. The judging criteria emphasise the innovativeness of the solutions, energy efficiency, cost-effectiveness, and environmental contributions. Among the recipients, HSUHK actively implemented a series of energy-saving measures and energy efficiency enhancement projects over the past years to be recognized with the Energy Management Award.

Mr Landy Hung, Director of Campus Development and Management Office (2nd left), and Mr Gary Lai, Assistant Manager (Campus Development) (2nd right), represent HSUHK to receive the award.
